Allowable Subject Matter

1. This action is in response to the communication dated November 10, 2005.
2. Claims 17 and 22-26 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method for generating a read only memory image. Each independent claim (claims 22-23 and 26) identifies the uniquely distinct feature "aligning the data image using a fill pattern and an alignment value prior to validating the data image". Each independent claim (claims 24-25) identifies the uniquely distinct feature "looping through each data image to compute a size of each data image, to align each data image, if necessary, and to generate a validating signature for each data image". The closest prior art, Novoa et al. (6,223,284), Yamada (6,000,005), Kohno et al. (6,523,125), and Sinofsky et al. (5,235,551) fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Dieu Nguyen whose telephone number is 571-272-3873. The examiner can normally be reached on M-F 6:00-2:30.
